Summary

Backend Developer focused on **Python, Django & REST API design** with 3+ years of experience building and scaling distributed applications, automating backend processes, and optimizing SQL workflows.

Tools, Technologies & Skills

Programming Languages

C, C++, JavaScript, Python

Frontend

ReactJS

Data Processing & ML

Pandas, Numpy, Scikit-Learn

Project Management

Git, Github

Async & Real-time

Celery, Redis,, WebSockets, Django Channels

Backend

Django, Django REST Framework, Flask

Database

Mssql, Mysql, Postgres

DevOps/Deployment

Docker, Docker Hub, Github Actions (CI/CD)

Authentication

JWT, Session-based Auth

Others

Data Structures & Algorithms, API Design, SQL Optimization, Feature Engineering

Professional Experience

Jan 2025 – Sep 2025

Senior Software Engineer, Leadsoft Bangladesh Limited

- Led cross-functional teams to resolve complex customer operations issues, ensuring timely delivery and minimal impact on business operations.
- Mentored junior engineers, provided code reviews, and promoted best practices in software design and development.
- Collaborated directly with stakeholders to gather business requirements, translate them into technical specifications, and drive end-to-end project execution.
- Reduced backend processing time by **30%+** by optimizing SQL queries and automations

Jun 2023 – Jan 2025
Dhaka, Bangladesh

Software Engineer, Leadsoft Bangladesh Limited

- Handled complex customer operations issues and fixed them before deadlines, ensuring smooth operation.
- Engaged with clients to analyze new requirements and implemented tailored deployments to meet their specific needs.
- Developed SQL scripts to enhance customer support.

Sep 2022 – Jun 2023
Dhaka, Bangladesh

Junior Software Engineer, Leadsoft Bangladesh Limited

- Configured software environments, deployed updates, and resolved SQL database errors for capital market clients, ensuring seamless operations.
- Customized reports to meet customer requirements, enhancing software functionality and enabling personalized data analysis.

- Performed basic network troubleshooting (e.g. checking connectivity, DNS, ping/traceroute diagnostics, router status) to support deployment and resolve infrastructure issues.

Jun 2022 – Aug 2022
Dhaka, Bangladesh

Intern, Leadsoft Bangladesh Limited

- Acquired business domain knowledge of Capital Market.
- Hands on experiences on SQL Server, IIS Configuration, Crystal Report.

Education

2015 – 2020
Dhaka, Bangladesh

Bsc in Computer Science And Engineering, North South University

Projects

Breast Cancer Prediction

- Technologies: Python, Pandas, Numpy, Scikit-Learn
- This project aims to build a machine learning model to predict breast cancer diagnosis (Benign or Malignant) based on various features extracted from digital images of fine needle aspirate (FNA) of breast masses.

Backoffice Software

- Technologies: Python, Django-rest-framework, React js
- Develop a full stack back office software to manage and track mutual investment on share market.

Ecommerce Website

- Technologies: Django, Bootstrap, Js
- Developed a full-stack eCommerce website with features including product catalog, shopping cart, and payment integration.

Certificates

Data Science & Machine Learning with Python

Ostad, Batch-49
